ENVIRONMENTAL SUSTAINABILITY POLICY

PREAMBLE:

Hongxiu Clothing recognizes its responsibility to protect the natural environment that inspires our products. We are committed to minimizing our ecological footprint by integrating sustainable practices throughout our end-to-end manufacturing process, from material sourcing to final delivery.

KEY POLICY POINTS:

- **Sustainable Materials Sourcing:**
 - ◆ **Prioritization of Recycled Fabrics:** We are committed to prioritizing the use of high-performance, eco-friendly fabrics made from recycled materials, including regenerated nylon derived from salvaged fishing nets and other ocean waste, and polyester from post-consumer plastic bottles.
 - ◆ **Supplier Vetting:** We partner with certified suppliers who share our commitment to sustainability and can provide transparent documentation regarding the origin and composition of their materials.
 - ◆ **Innovation in Materials:** We continuously explore and embrace advanced, sustainable material technologies to offer our clients innovative and environmentally conscious swimwear solutions.
- **Green Manufacturing Processes:**
 - ◆ **Water & Chemical Reduction:** We utilize state-of-the-art digital printing technology, which significantly reduces water consumption and chemical discharge compared to traditional dyeing methods.
 - ◆ **Waste Minimization:** Our factories (Yongchuang, Muchen, and Hongyi) are equipped with advanced computer-aided cutting systems to maximize fabric utilization, thereby minimizing textile waste at the production source.
 - ◆ **Energy Efficiency:** We are committed to investing in and maintaining energy-efficient machinery and infrastructure to reduce our overall energy consumption and carbon emissions.
- **Responsible Supply Chain & Operations:**
 - ◆ **Reduced Carbon Footprint:** By leveraging our strategic location in the manufacturing hub of Xingcheng, we prioritize local suppliers for raw materials and services, shortening our supply chain and reducing transportation-related emissions.
 - ◆ **Eco-Friendly Packaging:** We are actively transitioning from conventional plastic packaging to sustainable alternatives, including materials that are

recycled, recyclable, or biodegradable, to reduce post-consumer waste.

- ◆ **Continuous Improvement:** We will regularly review and improve our environmental performance, setting clear targets for waste reduction, energy efficiency, and the adoption of greener technologies.
